

ESCAPE

The Escape Room Xperience

Can Your team beat the system and get out alive ??

How it Works ?

- » Our team will come to you, and transform any indoor space into an escape room experience
- » Once time starts, your team will need to search the room for hidden puzzles and clues
- » Work together to solve all the challenges before the time runs out!

Programme Overview

In the Escape Room Xperience, the teams are given 120 min to solve mysteries or uncover secrets allowing them to address the challenge they have been given.

A short briefing and introduction are conducted before the start of the game session. The game is structured such that there will be numerous tasks, puzzles at the beginning, involving every member. These smaller tasks, when put together will eventually unravel a bigger, more complex mystery. Along the way, there will be some physical obstacle to be overcome, some codes to crack in order to proceed to the next stage.

The winning team will emerge when they can solve all the puzzles correctly in the shortest time.
